

Parent Engagement Network

WHAT IS PEN?

PEN is an outreach of the CONNECTIONS initiative where parents convene to become more fully engaged in their child's life through interactive discussions and community presentations on topics of interest to parents of Howard County students.

MISSION STATEMENT:

Parent Engagement Network (PEN) is a parent-based organization, created to bring our community together via interactive gatherings that address a variety of parenting issues. The purpose of these gatherings is to help educate parents on topics involving our youth and encourage relationship building so we can create a caring and safe community for our youth inside and outside the school environment. PEN engages parents and the community in fostering youth resiliency.
